

## **United Performance Metals California Facility Relocates**

La Mirada, California – August 1, 2011-- United Performance Metals has relocated its California branch to a new facility in La Mirada in order to accommodate our continued growth in the region. The addition of space will allow us to meet our customer's needs with even more inventory and processing equipment.

### **About United Performance Metals**

With a history that dates back to 1982, United Performance Metals has experience servicing an international base of customers in diverse industries including aerospace, automotive, power generation, oil and gas, medical and many others. United Performance Metals is part of the O'Neal High Performance Metals Group (O'Neal HPMG).
