FOR IMMEDIATE RELEASE

Plus Ten Stainless Earns Certification

Benicia, California – August 30, 2013 – Plus Ten Stainless has been assessed by NSF-ISR and found to be in conformance to the Aerospace Standard AS9100 Revision C for the supply, processing, stocking and distribution of stainless steel, high temperature alloys and consumable products to the aerospace and commercial markets.

Plus Ten Stainless has also its Certificate of Registration assessed by NSF-ISR and found to be in conformance to the standard ISO 9001:2008, for the supply, processing, stocking and distribution of stainless steel, high-temperature alloys and consumable products to the aerospace and commercial markets with the primary product form of plate.

About Plus Ten Stainless

Plus Ten Stainless is a supplier of stainless steel, Prodec® Plate and aluminum plate and specializes exclusively in precision cold saw cutting. Plus Ten Stainless is a division of United Performance Metals.

The United Performance Metals family of companies is a leading supplier of stainless, nickel, cobalt, aluminum and titanium that includes Plus Ten Stainless, Vulcanium, and United Performance Metals Asia.

United Performance Metals is one of fourteen leading brands that comprise O’Neal Industries (onealind.com), the U.S.A.’s largest family-owned group of metals service centers. With sales of approximately \$2.5 billion in 2012, O’Neal Industries is based in Birmingham, Alabama, and has more than 90 specialized facilities throughout North America, South America, Europe, and Asia.
