

Synergy

Family

Family is synonymous with synergy at O'Neal Industries (ONI). As part of the nation's largest family-owned group of metals service centers and component and tube manufacturing businesses, each ONI company has the strength, backing, and unwavering support of all the others. Separately, we're leaders in our fields. But combined, our capabilities are exponentially enhanced. And that translates to maximum value for when you make the ONI companies your one-stop shop for all your metals needs.

Ties

Together we stand to offer customers exceptional breadth and depth of inventory. Together, we offer unprecedented product, processing, and manufacturing expertise. Together, we offer access to more than 70 strategically positioned facilities in North America, Europe, and Asia for fast, efficient distribution. Together, we serve customers ranging from job shops to OEMs. Family Matters. And nothing matters more to the O'Neal Industries Family of Companies than pooling our resources to bring value to our customers in each and every way.

O'Neal Industries (ONI) is the nation's largest family-owned network of metals service centers and component and tube manufacturing businesses. Based primarily on product lines and industries served, the ONI companies are organized into two distinct groups: the High Performance Metals Group (HPMG) and the Industrial Metals Group (IMG). Companies in these groups include G&L Tube, Leeco Steel, Locate Supplies, O'Neal Manufacturing Services, O'Neal Steel, Stainless Tubular Products, TW Metals, and United Performance Metals. Companies within a group often work with each other, and sometimes across group lines, whenever there is a specific benefit to the customer, such as providing expertise for certain applications or enhancing the speed and efficiency of your supply chain.

High-Performance Metals Group

Tubing With A Difference

G&L Tube is a leading North American manufacturer of small diameter, thin wall tubing in stainless steel, nickel alloys, titanium and Monel®. G&L's products are produced for blue-chip OEM and Tier 1 customers serving diverse applications such as heating elements, vehicle fuel systems, HVAC and other heat and corrosion resistant applications. G&L utilizes proprietary metal forming and seam welding technology, established over a nearly 40-year operating history. gandltube.com

Produces Intricate Products In A Range Of Finishes

Locate Supplies, a TW Metals subsidiary, has facilities located in the UK. Locate is a distributor of aluminum, stainless, copper, brass and bronze, and plastic; available in plate, sheet, bar, tube, and extrusions. Locate also offers value-added services from dedicated processing centers with water-jet, plasma, and reverse engineering capabilities. locatesupplies.co.uk

The Name Says It All

Stainless Tubular Products (STP) offers specialty stainless steel in bar, hollow bar, tube, pipe, fittings and flanges to customers nationwide. With one of the nation's largest and most diverse inventories of ornamental and mechanical tube, STP provides in-house production cutting and polishing to customer's specifications. Founded in 1979, STP takes pride in their employees, products, and services, resulting in their continued growth. stainlesstubular.com

Serving Industries From Aircraft To Nuclear

TW Metals (TW) is a full-line specialty metals distributor serving customers in aerospace, nuclear, fabrication, energy, transportation, and many other industries. Headquartered in Exton, Pennsylvania, TW offers customers tube, pipe, bar, sheet, plate, and extrusions in stainless, aluminum, nickel, titanium and other high-value alloys. In addition to distributing specialty metals, TW partners with customers to provide innovative supply chain solutions, streamlining and customizing programs to suit specific production needs. twmetals.com

Specializing In Specialty Grades

United Performance Metals (UPM) is a global distributor of high-performance specialty metals. UPM's full line of high strength, high temperature, and corrosion resistant materials coupled with FIRSTCUT+® Processing Services provides quality solutions which support a variety of industries including aerospace, fastener, medical, power generation, oil and gas, semiconductor and many others. UPM is headquartered in Cincinnati, Ohio, and maintains nine service centers worldwide.

Industrial Metals Group

The Strongest Name In Steel

Leeco Steel (Leeco) stocks and sells steel plate, maintaining one of North America's largest inventories of carbon, High Strength Low Alloy (HSLA) and alloy steel plate coming from premier mills worldwide. Founded in 1882, Leeco has 11 strategically located distribution centers in North America that are stocked with huge quantities of carbon and heat-treated steel plate, and also supplies large-quantity commodity products to companies around the world via its expert [Trading division](#). leecosteel.com

Complex Fabrications To Your Exact Specifications

O'Neal Manufacturing Services (OMS) is a supplier of fabricated metal components and welded assemblies. OMS provides highly integrated, comprehensive manufacturing solutions to customers who build equipment and manage projects – ranging from locomotives to forklifts and bulldozers to power generation equipment. Founded in 1921, OMS contract metal fabrication offerings include steel fabrication, tube processing, plasma and laser cutting, metal forming, welding, machining and more to support global OEMs in North America. onealmfgservices.com

Built On Reliability And Relationships

O'Neal Steel, founded in 1921, is part of the United States' largest family-owned network of metals service centers and component and tube manufacturing businesses. Headquartered in Birmingham, Alabama, O'Neal Steel supplies a wide range of carbon and alloy steel, stainless steel and aluminum products for companies nationwide. In addition, the company offers value-added processing capabilities tailored to market needs, all while providing high levels of customer service. O'Neal Steel's industry leading online platform, PRONTO®, provides continuous access to inventory, pricing, and ordering. onealsteel.com
